HDI's Dune HD Lite has hit Australian Shores!

HDI's Dune HD Lite 53D, whilst small, is mighty on performance.

The new Dune HD Lite 53D's have finally arrived in Australia. It exceeds the performance of most, if not all entry level media players in the same market segment.

The 53D is perfect for those who can suffice with less internal storage and do not require a builtin Blu-Ray player. In particular, it's perfect for those who operate a central storage device and wish to display their media on one or more TV's.

Key Features include:

- Internal 2.5" Harddisk Bay
- Optional Digital TV
- Optional Internal/External 802.11n WiFi. Builtin 10/100mbps Ethernet
- SD card Reader
- HDMI, component, composite and Toslink Support
- Passes Both DTS-HD or Dolby True-HD HD 7.1 Digital Audio Formats
- External USB harddisk support

Availability of stocks is limited. Orders are fulfilled on a first come, first serve basis. For more information, please visit our [Dune HD product page](#). To place an order, contact us via email: sales@jayveetechnologies.com.au or tel: [03 9587 4455](tel:0395874455)
